3. Outputs required

4. Evaluation Criteria

A two-stage procedure will be used in evaluating the proposals, with evaluation of the technical proposal being completed prior to any price proposal reviewed and compared. The financial proposal will only be reviewed for submissions that have passed the minimum technical score of 70% of the total obtainable score in the evaluation of the technical proposals.

The technical proposal is evaluated on the basis of its responsiveness to the competency requirements as detailed in the evaluation criteria matrix.

Competency Requirements	Score (%)
Demonstrated understanding of aerial surveillance costs, opportunities, benefits and advantages and limitations.	30
Experienced and qualified MCS practitioner	30
Demonstrated experience in similar cost benefit assessments.	40
Total Score	100%
Qualification Score	70%

In the Second Stage, the financial proposal of all bidders, who have attained a minimum of 70% score in the technical evaluation, will be compared. The contract will be awarded to the bidder(s) offering the best value for money taking in account the accumulative scores of technical and financial evaluations.

5. Financial Proposals

The financial proposal should be submitted as a separate document and not included as part of the technical proposal. Financial proposals should provide a budget for the project including professional fees, travel and accommodation and any other costs associated with the completion of this work.
